**PreFab Modular
Monumental Stairs**

SYNERGi

Maximum Impact.

Utilizing a controlled environment streamlines production processes for fast product turnaround – ideal for large projects with a high volume of stairs. It also ensures optimum quality for the delivered product, which is craned into place onsite once assembled. With glass panels fitted to the steel stair structure and tread finishes, the installation is completed in a fraction of the planned duration, minimizing disruption to the project site and saving months off the project’s schedule.

Minimum Cost.

SYNERGi PreFab Modular MONUMENTAL STAIRS

Synergi is excited to share its latest pre-fab product offering – Prefab Modular Monumental Stairs – to give your project an iconic centerpiece that elevates it to the next level at a reduced cost and installation duration.

These modular stairs are entirely fabricated, assembled, and beautified with glass, fittings, and architectural finishes off-site, facilitating expedient and minimally-disruptive onsite installation. Problem-solvers at our core, our Prefab Modular Monumental Stairs product offers a high-design, low-cost monumental experience – made easy.

Fit & Finish Solution

Fabrication and assembly taking place in the Synergi workshop with our experienced team ensures optimum quality for the delivered product.

Production Time

Utilizing a controlled environment streamlines production processes for fast product turnaround – ideal for large projects with a high volume of stairs.

Economies of Scale

After finalizing the technical details of your design specifications, greater cost advantages are obtained as the processes of fabrication and installation are streamlined.

Ease of Installation

Once assembled, these prefabricated stairs are quickly craned into place onsite by Synergi’s nationwide erectors. Instead of coordinating cost, scope, and schedule between 3-4 trades, Synergi performs it all turnkey.

Diminished Project Schedule

Efficient fabrication and assembly followed by minimally-disruptive onsite installation saves months off a project’s schedule

Customizable

Our prefab modular monumental stairs are totally customizable - from the glass and fittings to architectural finishes - to best fulfill the design intent.
